ABOUT ME

Juan Antonio has built a substantial foundation in the field of software engineering, with a dedicated focus on backend development. Juan Antonio’s insatiable curiosity and unwavering passion for backend development drive him to continually explore clean software architectures, algorithms, and data structures. Furthermore, his prior roles in software application-focused companies have provided him with invaluable experience, enhancing his soft skills.

SOFT SKILLS

Education

- 2016-2022 B.Sc. Computer Science
Universidad de Murcia
- 2022-2023 M.Sc. New Technologies in Computer Sciences (Software Technology)
Universidad de Murcia

Experience

2021	Full-stack developer Metaenlace	Intern
2021	Full-stack developer Metaenlace	Software Engineer
2022	CyberDataLab member Universidad de Murcia	Investigator
2022	Valkyries H2020 Universidad de Murcia	Investigator

Languages

- Spanish - Native
- English - B1
- German - A1.1 (Emitid by Universidad de Murcia)

Certificates

Projects

- Intern developer
 - Distributed application for medical appointments (Angular, .Net 5, SpringBoot, Oracle SQL)
- Full-stack developer
 - Full-stack applications for Servicio Murciano de Salud (Java Server faces + Prime-faces, Spring Framework, Oracle SQL)
 - CI/CD (Jenkins)
- CyberDataLab member
 - Desktop application for the study of Brain-Computer Interfaces (Electron.js, React.js, FastAPI, MySQL)
 - Web application for for malware detection and classification in IoT devices (React.js, FastAPI, MySQL)
 - Participation in Valkyries H2020 (European project) as partner from Universidad de Murcia, leading some Work Packages and tasks

Stack tech

- Programming languages
 - JavaScript, HTML & CSS, Node.js, Java, Python, MySQL
- Frameworks
 - React.js, Angular, Electron.js, FastAPI, Spring Boot
